Finishing Instructions for The Tiniest Entrelac Bag

POPCORN:

WORK POPCORNs from the WRONG SIDE:

In this project, Popcorns consist of 3 unfinished double crochets all made in the same space, then joined. **An unfinished popcorn is made** as follows:

****** yarn over hook, insert hook into the work, pull up a loop, pull a new loop through the first 2 loops on hook ******. This leaves 2 loops on hook. **To finish the popcorn**, repeat ****** to ****** two more times. Then, pull a new loop through all loops on the hook. Ch 1, tightly. Slst into the base of the popcorn (into the same space where all the dc's were made).

MACHINE-WRAPPED CORD:

Cut one-yard lengths from each of the 5 yarn colors used in this bag.

Line up the ends and twist the strands gently together.

Zig-zag stitch over them on a sewing machine starting and ending about 2 inches from each end.

Tie a knot on each end where the stitching stops.

COVERED RING:

Thread a large-eyed needle with **DENIM**, and cover the entire ring with buttonhole stitch.

ATTACHING THE STRAP AND RING:

Fold the Machine-Wrapped Cord in half and stitch the fold between the center two **BURGUNDY** popcorns.

Sew the Covered Ring between the center two **LAVENDER** popcorns on the other end.

Bring the two tails of the Machine-Wrapped Cord through the ring and loosely knot them (see photo).
